

July 2016

God is changing our field of service

...by closing some doors and opening news ones! As referenced in our Newsletters, William has faced many life threatening situations with DVTs (*Deep Vein Thrombosis*) and PEs (*Pulmonary Embolisms*). In the almost 26 years as a BBFI missionary, he has experienced **over 15 DVTs**. The first one came about during our deputation travels, but was not discovered until we got to Germany, even after seeing many doctors in the US, who missed it. The last DVT developed in the fall during this furlough and was just found, that it was not one, but both legs with DVTs. None of the specialists we have seen in Germany or the US, has seen anyone live past two DVTs. Both American and German doctors agree, that we need to stop the extensive traveling and living on the road or one of these embolisms will kill William.

Field Change - August 1

After ***much counsel and prayer***, we know that God is moving us to the USA to plant more Churches. He is leading us to plant churches on the west side of Houston. As the news has recently reported, Houston is now the fastest growing city in the US with *over 159,000 people moving into the area in 2015* and is the most diversified city in the US passing up LA. Housing Communities are going up quickly. Many new schools are being opened now to accommodate the number of children moving into the area.

With this change, we are *officially resigning from the BBFI on August 1, 2016*. You can now send your support through Central Missionary Clearinghouse (CMC) in Houston, TX (see included form).

With this *massive growth*, there is an **extreme lack** of Churches for people to attend. We are getting set up in Houston now, and will begin this work immediately! Will you have a part in planting new Churches with us? Please prayerfully consider supporting this new work. William can do the Church Planting, it is only the extensive traveling and living on the road that causes the blood clots.

I will be calling you shortly, or you can call or email me @ the number or e-mail below.

Would you **commit financially** to help plant churches in the Houston, Texas area for 3 years? Would you consider giving a special offering to help us with the initial set up costs, i.e. advertising, printing, etc?

When the work becomes self-supporting, we will let you know, so you can use the funds to help others.
